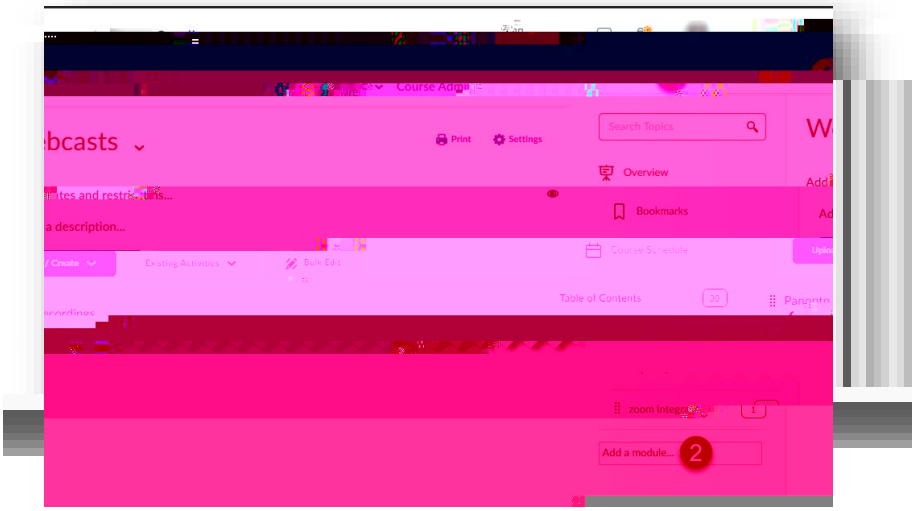
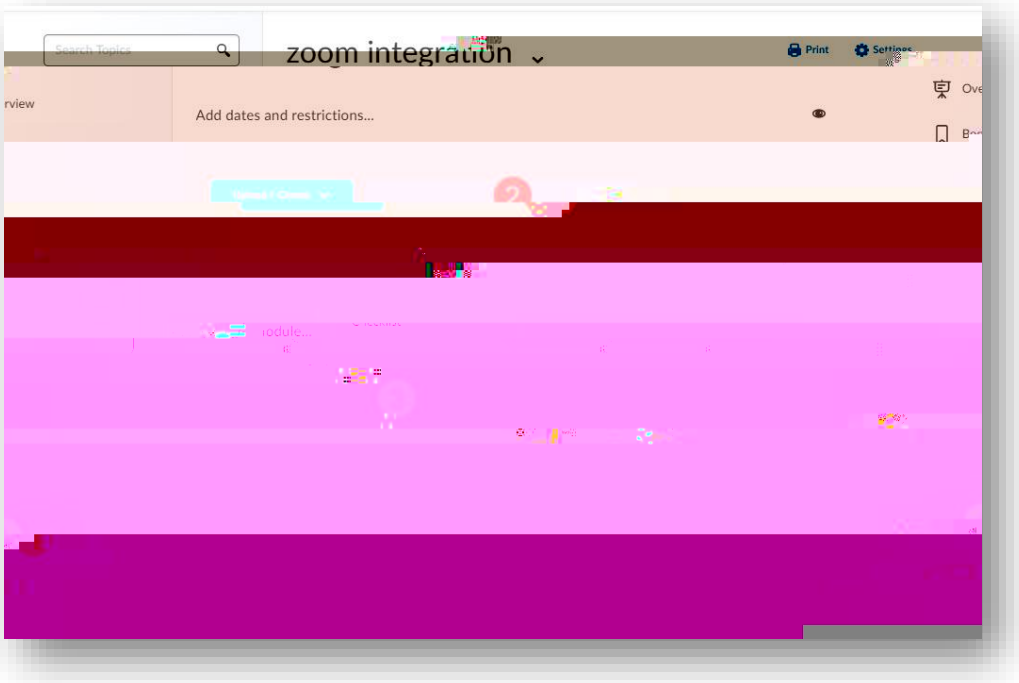
Login in Brightspace 2
Create the link from the Brightspace course to Zoom (one-time process) 3
Create Zoom Course session 4

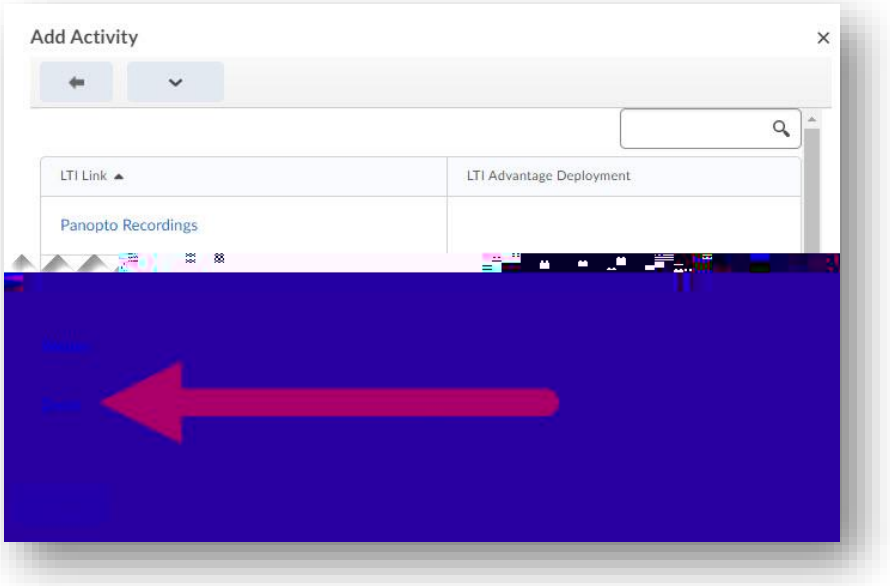
1. Scheduling of Zoom course sessions through Brightspace. When scheduled, a Zoom link will be sent to the Brightspace course calendar, for students to access the Zoom course session.
2. versus the Panopto livestream.
3. Automated transfer of Zoom recordings to the course Panopto folder.
4. Zoom Breakout rooms are available for class session use.

Click on the Content link, then Create a Module for your Zoom link

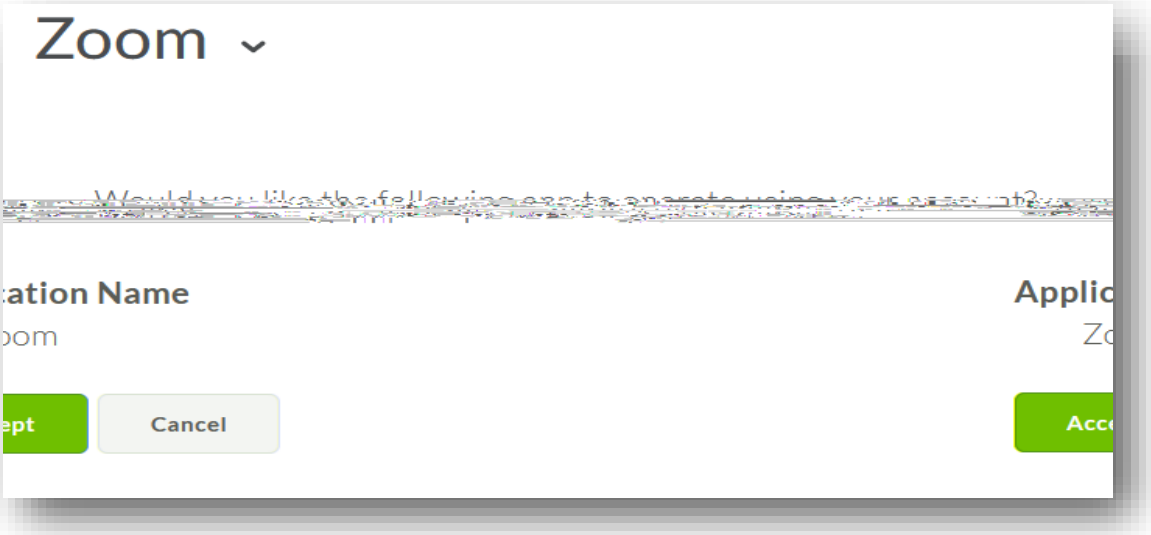


In your Zoom module, click on Existing Activities > External Learning Tools > Zoom





You will see the title populate the module
You may see the following prompt when doing this for the 1st time, but only one time. If you do, choose Accept:



Click on the title to access Zoom scheduling interface

Click on the Zoom title, you will see the familiar Zoom interface with all the scheduling and break out room capabilities, where you will schedule your course meeting.
Follow the fields to create the meeting
